Subject: RE: Bradford Island Updates and Technical Discussions

Hi Rich,

The recently awarded contract for the River OU is for 3 years and includes collection of sediment, sediment trap, and flow/current data from the river. It also includes screening technologies for the River OU and developing alternatives. It does not extend through the FS at this time.

Chris

Hi Chris,

In the meeting notes it mentions the new in-river contract that is awarded. My management had some questions about the scope. Can you confirm whether it is just for the RI update in the river, or does it follow through to the FS (or beyond)? Much appreciated.

Richard Francis
